

# For All Autolite® Products

## Information Regarding Manufacturers' Warranties

---

Original equipment manufacturers' warranties remain in effect when Autolite® products are installed and maintained in accordance with the service intervals recommended by the original equipment manufacturer. This warranty may be validated at Honeywell Consumer Products Group or at any authorized distributor.

Consumers are sometimes told by an automobile dealer's service department or mechanic that a brand of replacement product cannot be used in the consumer's vehicle during the warranty period. The claim is made that use of the brand will "void the warranty," with the statement or implication that only the original equipment branded products may be used. This, of course, tends to cast doubt on the quality of the replacement product.

That claim is simply not true. Under the Magnuson-Moss Warranty Act and general principles of the Federal Trade Commission act, a manufacturer may **not** require the use of any branded product (or any other article) unless the manufacturer provides the item **free of charge** under the terms of the warranty.

So if the consumer is told that only the original equipment product will not void the warranty, he should request that the OE product be supplied free of charge. If he is charged for the product, the manufacturer or dealer will be violating the Magnuson-Moss Warranty Act or other applicable law.

It should be noted that the Magnuson-Moss Warranty Act applies only to consumer products, and not to businesses such as fleets or government agencies.

### Consumer Warranty for Autolite® Products \$15.00 and under (retail price)

For those Autolite® products that cost \$15.00 or less and have a warranty on their packaging, Honeywell Consumer Products Group, a division of Honeywell International Inc., warrants them against defects in materials and/or workmanship during the period of time listed on the packaging from date of purchase (see \* for products with warranty period not listed on packaging). In the case of damage to a motor directly attributable to a failure of a properly installed Autolite® product that is the correct application for the vehicle, Honeywell Consumer Products Group will pay for the repair to a condition equivalent to that which existed before the failure. Honeywell Consumer Products Group is not responsible for any other damage or loss, and does not cover any type of losses or damages caused by incorrect installation, errors in application or modification of the product or engine.
